

SHERWIN ALUMINA COMPANY, LLC

Press Release:

November 19, 2015

We were delighted to learn today that the General Counsel of the NLRB denied the union's motion for reconsideration of his prior decision dismissing more than 65 unfair labor practice allegations related to collective bargaining and the lockout. We believe that this decision vindicates the Company's continuing commitment to good faith negotiations and to the parties' reaching a new collective bargaining agreement as soon as possible.
